## NOT JUST A BEARING COMPANY

Formed in 1984, IBS have developed an exceptional reputation for providing a quality service in providing industrial products and services to industries across the West Midlands.

The dedicated team have over 50 years experience and knowledge of the bearing and engineering industry.

We specialise in hard-to-find and obsolete bearings as well as standard products including bearings, belts, seals, motors, glues & adhesives, pulleys & sprockets, and agricultural tools.

We offer same-day or next-day delivery from our extensive stock holding enabling your products to be with you whenever and wherever you require them.

We have the technical expertise to source even the most difficult-to-find bearings, belts and chains. We offer you the best prices with fast delivery from our stock holdings. Even if you have no identifying documentation or markings for your parts then please contact us and our technical team will analyse your data and give appropriate advice for your requirements.

The company's commitment to providing high quality services and products has been central to our success and we are dedicated to providing a professional service that meets your needs.
